Crystal Ball

We see great big Jackpots in your future...

Crystal Ball is a new addition to the Family Fun Companies line up of great redemption games. Players set the crystal ball in motion with the unique handle located at the front of the game. All ages can play this game as we designed a system that allows even the lightest person to give the ball a great big spin.

Crystal Ball is bright and colorful and adds another dimension to your locations. As the ball spins, Crystal Ball gives off a light show like you have never seen before in a redemption game. The sound package sets this game off even further from the other games in your location.

Look inside Crystal Ball and you will see full cashboxes every week in your future....

Crystal Ball measures 27.5" W x 40.5" D x 83" H and weighs 500 lbs. Shipping dimensions are 33" D x 43" W x 86" H and 510 lbs.
